## PROFESSIONAL SUMMARY

Full-Stack Cross-Platform App Developer with hands-on experience in building modern web and mobile applications. Currently pursuing A Levels at Islington College with strong skills in React, Node.js, Flutter, and Firebase. Experienced in frontend and backend development through projects and an industry internship. Seeking full-stack or cross-platform development roles to contribute to real-world products and scalable systems.

## TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, C++, Dart  
Frameworks & Libraries: React, Node.js, Flutter  
Backend & Databases: Firebase, SQL  
Core Skills: Full-Stack Development, Cross-Platform Apps, REST APIs, UI Integration

## PROJECTS

### Full-Stack Cross-Platform Application | Full-Stack Developer

Designed and developed a complete cross-platform application from scratch. Built responsive frontend interfaces and connected backend services. Implemented authentication, database management, and real-time features with a focus on clean UI, performance optimization, and scalability.

Technologies: React, Flutter, Node.js, Firebase, SQL

## EXPERIENCE

### Junior Web Developer Intern

Digo Infotech

Assisted in developing and maintaining production-level web applications. Implemented frontend components, supported backend functionality, fixed bugs, and optimized application performance while collaborating in professional workflows.

## EDUCATION

### A Levels (A2 Level)

Islington College — Expected Graduation: 2026

### Secondary Education Examination (SEE)

Suryodaya Secondary Boarding School — Passed

## CAREER OBJECTIVES

Short-term: Secure a full-stack or cross-platform development role or internship.

Long-term: Build scalable applications and contribute to impactful technology products.
